PROFESSIONAL SUMMARY:

Results-driven software developer with 4+ years of experience in building user-friendly and robust web applications. Proficient in JavaScript, TypeScript, and modern frameworks. Over the years I have actively contribute to applications for clients across fintech, edtech, and professional services. I believe great software is not just about writing code — it's about deeply understanding a problem, then engineering a solution that's reliable, maintainable, and genuinely useful.

AREAS OF EXPERTISE:

- ✓ Front-end & back-end web development
- ✓ Agile software development
- ✓ Nodejs, Typescript, React, React Native, HTML, Tailwind, Redux, MongoDB, Express
- ✓ Web performance optimization
- ✓ Smart contract and dApps development
- ✓ Project management
- ✓ Git, Github web3js, RESTful Apis

PROFESSIONAL EXPERIENCE:

Veclary

Software Engineer | January, 2024 - Feb, 2026

- Designed and maintained critical REST APIs for a scalable school management platform.
- Collaborated with cross-functional teams to build intuitive, responsive, and scalable web applications.
- Implemented user interfaces, resolved frontend issues, and optimized applications for performance and scalability.
- Consumed RESTful APIs to create dynamic user interfaces and enhance user experience.
- Utilized React-Redux for state management and client-side rendering.

Stem Innovators Lab Limited

Project Manager | February 2023

- Oversee and maintain core web services and websites
- Mentored interns in software development, emphasizing efficient coding practices and modern tools.
- Supervised project teams in developing and maintaining web applications, ensuring high-quality deliverables.
- Participated in project development discussions, providing input on design feasibility and user experience improvements.
- Gained hands-on experience with project management tools like Agile, Kanban, Jira, and Bitrix24.
- Organized boot camps and workshops to promote ICT literacy and foster collaboration among tech enthusiasts.

RELEVANT PROJECTS:

Veclary: [link](#)

Web Developer | 2024 - 2026

- Designed and maintained critical REST APIs for a scalable school management platform. Optimised database queries and server-side logic, significantly improving response times and system reliability.
- Develop, maintain, document and deploy the backend api for school management solution featuring users authentication, teachers, school panels and students grading and payment integration.
- **Technologies:** React, Typescript, Node.js, Express, Paystack, Swaggerjs, MongoDB.

Flygocom

Backend Developer

- Build and develop, document and deploy the backend for flight booking management system solution featuring user authentication, user flight booking, admin panels and payment integration.
- Integrate with third-party API to fetch live and latest flights.
- Continuously maintain and update projects to meet business objectives
- **Technologies:** Node.js, Express, Paystack, Swaggerjs, MongoDB.

Gates Housing Limited: [link](#)

- Developed a platform for booking rooms and renting houses, featuring user authentication and payment integration.
- **Technologies:** React, TailwindCSS, Node.js, Express, MongoDB.

Teeconseed: [link](#)

- Developed a platform for booking rooms and renting houses, featuring user authentication and payment integration.
- **Technologies:** React, TailwindCSS, Node.js, Express, MongoDB.

EDUCATION AND CERTIFICATION:

Global Startup Accelerators program 2024

Certificate of Participation

Build for Earth 2024

Winners (Food Category) with Greenance agricultural Solution

Hack for Earth 2024

Certificate of Participation

Diploma in Software Development 2023

Diploma Certificates in Computer Appreciation and Responsive Web Development

IBM Call for Code 2023

Winners with Shara Waste Management Solution

HP-life Certification 2022

Certification on Project management.

Hack for Earth 2022

Certificates of Participation with Shara Waste Management Solution

Bayero University Kano | 2021

Bachelor of Science in Business Administration
